

DRASTIC STEPS TAKEN TO PREVENT FAMINE

City Officials Instructed To Enforce Coal Restrictions Commencing Tuesday

Drastic war-time fuel regulations, ordered resumed by the Regional Coal Committee, Atlanta, Ga., will go into effect in Richmond Tuesday. Instructions containing the official copies of the order was received by Mayor L. P. Evans Monday afternoon and all Government agents, Mayors and the police chiefs are requested to see that the regulations are obeyed.

The strike of the miners of soft coals, who have been idle for the past month has brought on conditions like those prevailing during the war, in many sections, and not much hope was held out by officials last night for early production of bituminous coal in quantities sufficient to permit maintenance of present slim reserves, under supervision of the Railroad Administration's Central Coal Committee.

According to figures given out Monday last week's soft coal output did not reach 50 per cent of the normal production. No figures as to the amount of coal now on hand are available but the outlook seems very unpromising, with the miners still on their vacation.

According to the best information that could be obtained from the coal merchants of Richmond, there is only about a week's supply, should the temperature drop several degrees. The rulings now in force of the Federal Administrator prohibit dealers from securing another car of coal as long as they have coal on hand in their yards. One Richmond coal dealer stated Monday, that you couldn't take a broom and sweep enough coal to fill a bucket, stated that their small diminishing rapidly.

Instructions of the order which will affect community are as follows:

Heat

Between the hours of 7 a. m. and 4 p. m. only enough heat from coal, gas or oil may be used in offices, stores, warehouses, manufacturing plants as to keep the average temperature at 70 degrees F. This temperature may be obtained in theatres, moving picture houses and other places of public amusement between the hours of 1 p. m. and 10:30 p. m.

Exception—On Saturdays the temperature may be obtained at 70 degrees between 7 a. m. and 9 p. m. in case of stores handling food and wearing apparel.

2. After closing hours on Saturdays and after 4 p. m. on the remaining week days and on Sundays only enough heat is to be used to prevent freezing of water pipes or sprinkler systems. Where exceptions are made in certain classes for lighting, heat will be allowed during allowable lighting period.

3. In manufacturing plants or plants coming under power curtailment rules, heat (to 70 degrees) will be allowed only during that time allowed for use of power.

4. No curtailment on use of coal, steam or gas for producing hot water for hotels, restaurants or barber shops.

Power

1. No manufacturing plant or factory shall operate in excess of 48 hours per week.

Exception (a) Dairies, ice and refrigerator plants, bakeries, plants for the manufacture of necessary medicinal products, waterworks, sewerage plants, gas manufacturing plants, plants operating continuous processes (such as acid manufacture, blast furnaces, etc.), printing plants for the printing of newspapers, periodicals, battery charging outfits and plants producing light or power for telephone, telegraph or public utilities companies are exempted.

2. Elevator service must be curtailed as much as possible.

General exception to light, heat and power provisions—necessary operation of Federal, State, Municipal and County institutions and buildings.

Light

1. No ornamental lights,

white way or other unnecessary street lights, outline lighting, electric signs or illuminated bill boards are to be operated. This does not affect street lighting for the safety of the public.

2. Stores, manufacturing plants and warehouses must not use electric or gas lights (except safety lights) except between the hours of 7 a. m. and 4 p. m.

Exception (a) Drug stores, for sale of drugs only, and restaurants may remain open according to present schedule, but must curtail number of lights 50 per cent.

Exception (b) Railroad stations, hotels, hospitals, telephone, telegraph and newspaper offices are not included insofar as necessary lighting is concerned.

Exception (c) Lights may be used in offices of manufacturing plants for necessary accounting purposes at any time.

Exception (d) General and office lights must be cut off at 4 p. m. in office buildings except where office operations of vital industries is involved.

Exception (e) Moving picture houses and theatres and other public places of amusement may burn lights only between 1 p. m. and 10:30 p. m.

Exception (f) Barber shops may remain open from 8 a. m. to 6 p. m.

Exception (g) Dairies, ice and refrigerator plants, bakeries, plants for the manufacture of necessary medicinal products, waterworks, sewerage plants, gas manufacturing plants, plants operating continuous processes (such as acid manufacture, blast furnaces, etc.), printing plants for the printing of newspapers, periodicals, battery charging outfits and plants producing light or power for telephone, telegraph or public utilities companies are exempted.

Exception (h) On Saturday nights, time of closing mentioned under paragraph 2, will be extended until 9 p. m. for stores selling food and wearing apparel.

NATION WIDE SHUT DOWN OF INDUSTRIES

(By Associated Press)

Chicago, Dec. 2—Restrictions on the use of coal already put into effect by regional coal committees where the pangs of necessity have been felt, today were extended throughout the nation by the Federal Fuel Administrator's order. The most extensive shut-down of industry in history is in prospect and domestic consumers are preparing to endure privations as the strike of the bituminous coal miners entered the second month.

Only in Kansas with volunteer workers and in New River fields of West Virginia was there prospect of increased production.

Throughout the remainder of the country the miners apparently determined not to return to work under the government's 14 per cent wage increase.

Anthracite Miners May Strike

Springfield, Ill., Dec. 2—President Farrington, of the Illinois miners, intimated today that if necessary the anthracite miners might strike if the soft coal miners found themselves hard pressed in this strike.

READJUSTMENT OF NATION TO PEACE BASIS

In Stirring Message of President Wilson To Congress—Peace Treaty To Come Later

(By Associated Press)

Washington, Dec. 2—General recommendations on legislation to combat the high cost of living, radicalism and readjustment of the nation to a peace time basis, were features of President Wilson's message to Congress today. The peace treaty and the railroad question will be discussed in a later separate message.

The President's principal recommendations are the establishment of a budget system for national finances; reorganization of the taxation system with simplification of income and excess profits; readjustment of the tariff system, if necessary, to meet the changed world conditions and make the system conform with the fact that the United States is the "greatest capitalist in the world," recognition and relief for veteran soldiers of the world war, particularly in the way of government farms as proposed by Secretary Lane; proper methods to foster the dyestuffs industry to keep the United States independent of foreign supply; enlarged program for rural development in recognition of the farmers' part in the war, and measures which "will remove causes of political restlessness in our body politic."

At this point the President made his most extensive reference to the peace treaty, saying the causes for unrest "are superficial rather than deep seated" and that they "arise from or are connected with failure on the part of the government to arrive speedily at a just and permanent peace, permitting the return to normal conditions from transference of radical theories from seething European centers, pending such delay from heartless profiteering from the machinations of passionate and malevolent agitators, and with the return to normal conditions this unrest will rapidly disappear."

The President renewed recommendations for legislation to deal effectively with "those persons who by violent methods would abrogate our time-tested institutions." Several recommendations were made to cut the cost of living, including extension of the food control law to a peace time emergency; cold storage law and law to secure "competitive selling and prevent unconscionable profits" by federal license of corporations selling food in interstate commerce.

A long portion of the message was devoted to discussion of conditions and rights of labor. "A definite program to bring about improvement in conditions of labor and genuine democratization of industry" were recommended.

"The only way to keep men from agitating against grievances is to remove the grievances," the message said. At another point it declared the "seed of revolution is present" and asserts that the League of nations principles offers the only way to industrial peace and conciliation. "No other road is open to us."

The message declares "collective bargaining is humane and labor must not be treated as a commodity." "The right of individuals to strike is inviolate," the message says, "and ought not to be interfered with by any process of government, but there is a predominant right and that is the right of government to protect all its people and assert its power and majesty against the challenge of any class." This was referring to the recent coal strike injunction.

The message closed with pointed reference to radicalism and red doctrines and referred to Russia today with its "blood and terror" as painful object lessons of power of minorities. "Orderly processes," the message declared, "is the only way to obtain relief and reform; any other method is enemy method. Let those beware who take any shorter road of disorder and revolution."

In 1795 it took 100 days to send mail from London to Bombay.

CLAY TO DELIVER ADDRESS TO ELKS

Annual Memorial Services Will Be Held By Local Lodge Sunday, Dec. 7th

Judge William Rogers Clay, of Frankfort, will deliver the annual memorial address to Richmond Lodge No. 580, Benevolent and Protective Order of Elks next Sunday afternoon. The first Sunday in December is the annual occasion upon which Elks lodges all over the United States pay tribute to the memory of their brothers who have gone to the Greater Lodge. As usual, Richmond Lodge will observe the occasion with fitting ceremonial.

The service will take place at the First Christian church. Mrs. G. W. Pickels is arranging an attractive and suitable musical program. Exalted Ruler Wm. O'Neill intends to make the ceremony a beautiful and impressive one in every way, and every Elk is expected to be in attendance, as well as members of his family and friends, all of whom are cordially invited as this ceremonial is public and open to all.

Judge Clay is Commissioner of the Court of Appeals at Frankfort, and one of the best known and most eloquent orators in Kentucky. He will deliver a memorial address that will be worth hearing.

JOHN A. BLACK IN SERIOUS CONDITION

His brother here, Mr. Alex Black and other relatives here, are very uneasy over the condition of Mr. John A. Black, at Barbourville, who was severely injured when a horse throw him last week. He is also a brother of Gov. Black at Frankfort. Mr. Black is past 80 years of age, which makes his condition the more serious. He was riding his regular saddle horse, which was afraid of nothing but a train. An engine came up behind the animal while Mr. Black was on his back, and it reared and threw him. The aged gentleman's face was badly cut and it is feared that he sustained internal injuries.

DR. COATES AT LONDON

President T. J. Coates was in London late last week, where he attended the Upper Cumberland Educational and Industrial Association, composed of Laurel, Whitley, Knox, Harlan, Rockcastle, Clay and Bell counties. Among the speakers were: Dr. Frank L. McVey, president of the University of Kentucky; Dr. Coates, Miss Mary E. Sweeney, University of Kentucky; Dr. E. F. Franklin, Union College; Prof. A. S. Mosely, Cumberland College; Prof. W. J. Baird, Berea College, and G. Morgan, University of Kentucky.

JUDGE TO NAME WILMORE OFFICIALS

Owing to failure to elect, Judge Shackelford will have to appoint a town council and a city judge at Wilmore in Jessamine county. A mass meeting was held there Saturday night to recommend the names of five trustees and a police judge.

BUYS NICE HOME

Mayor L. P. Evans bought of Mr. Joe Giunchigliani his beautiful residence in Burnamwood now occupied by Prof. S. S. Myers and family. This is one of the most attractive homes in Richmond, beautiful located, steam heat, and all modern improvements. Mayor Evans will get possession the 1st of January.

SPEARS WIN HEMP SUIT

The Court of Appeals at Frankfort has affirmed the Circuit Court of Boyle County in the case of Caldwell vs. Spears & Son, of Bourbon county. The controversy in this case arose over a deal in hemp of several months ago, when Mr. Richard Cobb, who was the Danville representative of Spears & Son, of Paris claimed that he had purchased a certain crop or amount of hemp from J. C. Caldwell, Jr., and there was a misunderstanding out of which the above suit grew. Spears & Son won in the Circuit Court.

BIG CROWD SEES SHANNON STOCK CO.

The opera house was filled to capacity last night to witness the first performance of a week's engagement by the popular Shannon Stock Company, who are playing a return engagement here after an absence of two years. The bill for the opening night was the powerful drama, "The Powers That Be" and each member of the cast portrayed their part to perfection. The work of Mr. Howard Wyson, as District Attorney, H. C. Soubier, as the Political Boss and Mr. Carl Fleming as the hypocrite, deserves special

mention, in fact the work of the entire company proved them to be above the average performers carried with stock companies. The work of the ten piece orchestra kept the show lively from the first overture until the final act, and it was pronounced by all to be one of the best that has been in Richmond for many years. The vaudeville stunts between the acts made it a continuous pleasing show, and there is no doubt that the Shannon Stock Company will play to capacity business during their stay in Richmond.

DIES IN BOSTON

Harry Goodloe Simmons died suddenly in Boston Sunday morning, will be buried in Danville, Ky., Thursday. His mother was Miss Emma Goodloe, sister of Judge John D. Goodloe. He was unmarried and is survived by one sister, Miss Emily Simmons.

Big Lot of Cattle At

Madison Stock Yards reported 2,000 cattle on the market court day. Prices about \$10 per hundred. About 400 sheep sold at good prices. At the East End Yards best steers sold at \$11 per hundred; heifers brought from 7 to 8 1/4 cents per pound; cows sold at \$8; thin quality cattle at \$7 to \$8 per hundred.

Good mules on the streets were active at \$200 and \$300 each. Cattle 9 1/2 to 10 cents per pound. The market closed mean and quite a number were left over. Wm. Wagers and Garnett Million had two car loads of cattle shipped from Kansas City to feed for the later market. Trading in all lines was a little dull.

SADDLE HORSES FOR CUBA

Dr. H. F. Laine, of Cuba, was in the Blue Grass section, last week and bought 26 fine saddle horses from the following: John Stewart, Lexington; Carey Ward, Georgetown; S. T. Harbison, Lexington; J. K. Baughman, Stanford; C. L. Kerr, Lexington; Frank Peters, Springfield; Grover Anderson, Mt. Sterling; Dan Mitchell, Carlisle; Mr. Hadden, Mt. Sterling; Joe B. Smith, Paris, and Less Chamberlain, of North Middletown.

ALL READY FOR OPENING TOMORROW

Tobacco Men At Lexington Today Watching Prices At First Sales Of Season

Everything is in readiness for the opening of the Richmond tobacco market Wednesday morning. The floors of both warehouses are well filled with weed, and it all looks good. The first weed in this season is said to grade better than is usually the case with first offerings.

Many Madison county tobacco men; in fact, tobacco men from all over the Blue Grass markets are in Lexington today to witness the opening of the markets there, and get a line on prices that will be paid. Predictions are freely made that the market is going to start off higher this year than for many seasons. The prices that have been paid by pinhookers and other in advance of the regular market opening, indicates that there is a feeling in the air that prices are going to be way up.

The Big Four will have regular buyers on the breaks here at Richmond, and at Lancaster too, which is also expecting a big opening. There will be several new faces on the local breaks. Wearan Kennedy succeeds Earl Curtis as buyer here for the Liggett & Myers. W. P. Kincaid will buy here again for the J. P. Taylor Company, and W. P. July for R. J. Reynolds. So far the names of the buyers who will be stationed at Lancaster, have not been learned with one exception. H. L. Soper, of Harrodsburg, who is a brother-in-law of Senator A. O. Stanley, will buy there for the J. P. Taylor Company.

Both Richmond warehouses have well organized staffs and are all ready to get the high dollar for their patrons. It is understood that Chennault Duncan and J. B. Walker will be solicitor here for the Home House, while Percy Reid, has secured a leave of absence from his automobile duties, to solicit for the Madison House.

CANTRILL PREDICTS RECORD WEED PRICE

On the eve of the opening of the Burley tobacco market in Kentucky Congressman J. C. Cantrill gave out a statement in which he says that "from every reasonable standpoint the price of tobacco this year of the Burley type should break all previous records."

His statement, no doubt, will have a tendency to "bull" the market, as he is the best known recognized authority on Burley tobacco. "It is well known," he says, "that the crop of tobacco grown in the year 1918 was an unusually large crop of Burley tobacco and yet on October 1, 1919, the stocks in the hands of the dealers and manufacturers were practically the same as the average amount during the past eight years. It is also well known to every one conversant with conditions in the Burley tobacco district, that the crop grown this year is an unusually short crop of tobacco and applying the law of supply and demand there is every reason to believe that there will be an unusual demand for the crop of tobacco which will go on to the market very shortly and there is every reason why, owing to the scarcity of Burley tobacco and the stocks in the hands of the manufacturers and dealers the crop which is to be sold this winter of Burley tobacco should bring a higher price than ever in the history of the tobacco market."

TO TOSS COIN FOR OPENING SALE

The two tobacco warehouses of Richmond await the tossing of a coin tomorrow morning as to which one has the opening sale. The coin will be flipped in the air just as soon as the buyers are assembled to begin their duties on the local breaks, and no matter which one happens to be the winner, it will be a busy day, as both floors are groaning under the weight of Kentucky's weed.

Frank R. Crome, Johnson Building, Cincinnati, Ohio, former agent, was in town, on business court day. He tells us that he sold farms recently to Mr. Foley, Mr. Alexander and Mr. Smith, of this county 1p

Keep The System Clean And You'll Be Healthy

Elimination helps to avoid colds, headaches and epidemics

ANYONE who has watched himself knows there is nothing so important to health and comfort as regular daily elimination. Half of the minor illnesses of life are due to neglect of this. The five million men who were in our army know the importance the doctor attached to this function.

By all means try to regulate yourself by intelligent diet and exercise, but when these fail you will need a laxative, one as near to nature in its action as skill can make it. In the opinion of many thousands of good Americans such a one is Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin. It acts promptly, gently and without griping and will with certainty regulate any tendency to constipation that you may have.

Take it when you feel drowsy, dizzy or bilious, when you feel a cold or a fever coming on, when there is an epidemic, when you have eaten anything about which you are in doubt. It is at such times that you need to be free of poisons and of fermenting foods. You can buy Dr. Caldwell's Syrup Pepsin at any drug store for 50c and \$1 a bottle. Thousands of families have it constantly in the house against emergencies.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

The Mines of Xmas Cheer Won't Shut Down At Elder's

Here at Elder's the coal-saving order of the Regional Committee is accepted in the spirit of the Christmas now so close at hand. It will be carried out cheerfully and with a will to further the ends the committee seeks.

Accordingly, beginning today and continuing until further notice, Elder's daily store hours will extend from 9 a. m., to 4 p. m., except Saturday from 9 a. m. to 9 p. m., the closing hour fixed by the order.

Under this schedule an hour and a half will be cut off your buying time and off our selling time each day during this busiest season of the year. This is equivalent to reducing the twenty-one shop days between now and Christmas to seventeen days, with three hours to spare.

Elder's is thoroughly prepared to help you make the most of every minute that remains. With our co-operation, any inconveniences that might be expected from the curtailed shopping period can be reduced to the minimum and the objects of the shortened days also can be promoted.

DISABLED SOLDIER IS GETTING A CHANCE

"I would rather give my place to some soldier who was more seriously disabled than I am," said Clyde O. Burton, of Bowling Green, Kentucky, when he was approached by an agent of the Federal Board for Vocational Education.

Of such material are the sons of old Kentucky made.

Burton was a hardware clerk when the war broke out. He was working hard at a salary of \$12 per week to support his aged mother. Everybody in Bowling Green remembers the smiling young clerk. He was a general favorite.

During his service he suffered a disability which prevented his returning to his old job. It was the case with hundreds of others he returned to his home town glad that he had helped to keep the Germans hordes from landing upon our shores and possibly devastating the blue grass pastures of the famous old state of Kentucky.

His disability he made light of. He had faithfully performed his duty for his country. He still had the duty of supporting that aged and loved mother.

When assured by the Federal Board agent that his taking training would not interfere with any other disabled man getting the same gratitude. I will do my utmost to make good, and thank you for your kindly interest," said Burton.

The Federal Board agent examined the young man closely. It was discovered that he had a legal mind which needed only to be developed. A course in law was suggested. The opportunity was eagerly accepted. Burton was entered for a law course at the University of Kentucky.

Some day soon Burton will hand up a shingle announcing he is an attorney at law. If he puts the same spirit into his law practice that he put into whipping the Huns, which he exhibited toward his mother, and which showed for his disabled comrades, his clients are going to have brilliant representation at the bar.

Burton is showing great progress at the University. The Government, through the Federal Board, is providing the expense of his course and is seeing to it that the little mother back in Bowling Green is not suffering for this life's comforts. That is the way a grateful government is taking care of the men who sacrificed so much in its defense.

TOBACCO SOARING HIGH—CROP DAMAGED IN WHIRLWIND

Lancaster, Ky., Dec. 2—Yesterday morning about ten o'clock a prodigious whirlwind of great violence crossed the Lexington pike just north of Henly Bastine, drawing into its vortex the greater part of a load of loose tobacco which happened to be in a wagon on the road at that particular spot.

Quantities of this tobacco, tied originally in small hands, were carried to a height of 400 feet in the air, along with a good deal of straw fodder and other light material, all of which was scattered over a narrow landscape nearly a mile in length. Dave Sanders, the owner of the weed and who was driving the wagon at the time, lost his hat but managed to hold on to his team, which had bolted at the moment of becoming involved in the roaring air-torrent.

The wake of the speeding phenomenon represented a soothing atmosphere of

pherie tumult, of eccentric cold-air blasts and whirling clouds of dust.

It soon disappeared from view. Mr. Sanders was fortunate enough to recover most of his tobacco, some of which was considerably damaged, yet he was so delayed by this exciting experience that he did not reach town with his loaded wagon until this morning.

NEALE BENNETT BUYS BUTLER FARM AT \$205 ACRE

Forest Hill, Dec. 2. The sale of Tom Butler was conducted at this place last Wednesday. It being a very rainy day not many were present. We regret very much to give up this good family who have been in our midst the past five years, but wish them much success in their new home.

COUSIN OF P. M. POPE DIES IN HARRISON

Mr. Peter M. Pope has just received news from Cynthia of the death there of his first cousin, Mr. Wm. H. Pope, a prominent farmer of Harrison county. The Cynthia Democrat said of him:

William Hayden Pope, well known farmer of the Republican neighborhood, this county, died at his home Thursday, Nov. 30, from typhoid fever, after an illness of a month. He was born in this county Sept. 5, 1848, a son of the late George and Elizabeth Lenox Pope. He was married to Isabel Ross about 45 years ago. His wife died 31 years ago. His second wife, who before her marriage was Mrs. Emily Marshall, has been dead nine years. Two children survive, Mrs. Thomas Whitaker, of Sylvandell, and Willie Pope, of Republican. Mrs. Pope was the last of a large family. Practically all of his life had been spent on the farm where he died. He was a member of the Christian church at Republican, with which he united when a young man, and he was esteemed as one of the county's most upright and best citizens. The funeral was held at Salem Saturday morning, with services by J. D. Florence.

250 Acres Finchville Land

The very best land in Shelby county, located right in the heart of the famous Finchville neighborhood. The place where land has been more active than any part of Shelby county and where now you can hardly get a price on a farm.

We are selling for Mr. C. L. Walters, his grand farm which he recently purchased from the Smith heirs, consisting of 250 acres of as good land as there is in the state at

PUBLIC AUCTION

THURSDAY, DECEMBER 4, 1919

at 1 p. m. on the farm which lies just three miles from Finchville, on the Finchville and Clark Station pike, 10 miles from Shelbyville and two miles from Southern Railway. We have looked over lots of farms over the state but crops are better on this farm than you will find on land that sells for \$300 to \$400 per acre

WE HAVE CUT THIS ESTATE INTO 2 FARMS EXCELLENT LAND

FINCHVILLE is the garden spot of Shelby county. The old Smith homestead is well known as one of the very best farms in this section of the county. This is your opportunity to buy a farm that has never been on the market before, one that has been treated right, has been used as a stock farm for years and very little tobacco raised on it. It is seldom that such a good farm is put on the market at the high dollar and we were able to get this one to sell only on account of a division being made by the Smith heirs. It is bound to be a good one, just think of the neighbors. The Craverson place is on one side, the old Hornsby place is on one side and Ernest Tucker on the other. Ask any of them what they will take for their farms. This one is just as good.

FARM NO. 1 150 ACRES

The old home place, a nice brick home of seven rooms, good tobacco barn, big stock barn, crib and all necessary outbuildings in good repair. Plenty of water, lots of bluegrass and practically this whole farm ready for cultivation. The crops are now in the cribs and barns and will show what this farm will do in a dry year.

FARM NO. 2 100 ACRES

A small tenant house and every foot good land, some of this is still in virgin timber. Look at the corn crop on this place, then see the rest of the land which is just as good. You have plenty of good tobacco land. How can you help buying it?

WE SELL absolutely without reserve or by-bid. You set the price, we take it. Get in the game Just think of the fortunes that have been made in farms. Have you made yours? This is as good an opportunity as any one ever had to buy a GOOD farm at your own price. Get in and make yours.

Terms easy. Will be made known on day of sale. If your desire to inspect the farm before day of sale you will find some one at the farm to show you over or we will be glad to take you from our office in Shelbyville.
